Patient name	: KHALED MOHAMED ABDELWAHAB RABEE	Registration Date	: 2022-02-18 10:38
Passport No	: A21596440	Result Date	: 2022-02-18 20:17
Nationality	: Egyptian	Date Of Birth	: 1991-09-09
Gender	: Male	File No.	: 211011000830
Branch	: المحلة الكبرى		

### Molecular Biology Report

Test	Result	Unit	Reference Range
COVID 19 by RT-PCR	Positive	.	Negative

\* Specimen : Nasopharyngeal swab , Oropharyngeal swab.

\* COVID-19 RNA PCR test done by automated realtime

This to certify the aforementioned person has undergone testing for **COVID-19** disease by the below referred laboratory utilizing the hisghest sesitive molecular techinque **RT-PCR**. Nasopharyngeal sample was collected according to WHO guidelines and infection control standards.

RNA extraction, reve sre transcription to complementary DNA subjected for testing to confirm the persence of the known gene sequence of SARS-COV-2 virus in the designated sample.

From the clinical laboratory point of view PCR testing for SARS-COV-2 is **Positive** at 2022-02-18 10:38  
Result issue on 2022-02-18 20:17

Approved By Dr. Ahmed Mustafa
